

The logo for Tier One Building Services features a stylized black triangle with horizontal lines inside, centered between two curved black lines that resemble a wide smile or a protective shield. Below this graphic, the text "TIER ONE BUILDING SERVICES" is written in a bold, red, sans-serif font.

TIER ONE BUILDING SERVICES

Hi my name is Rick Bidwell, I'm the owner and operator for Tier One Building Services. My company is dedicated to quality work and customer satisfaction. I have 40 years of operational experience in the environmental service industry. I have worked in offices, manufacturing, governmental, healthcare, school, food services and entertainment club environments. I have been designing & implementing cleaning programs for all these environments over the years. I'm certain you will feel Confident in my ability to service your facilities cleaning needs.

I started Tier One Building Services in the year 2000. In that year I was Purchasing the best equipment on the market and doing small one time Jobs and subcontracting for cleaning company's and working full time for Broome County. I grew up in Broome county and started a family here and this is where I started my business. I decided to leave my job in May of 2001 and put 110% of my time into my business. Since that time my goals have been working to obtain a ceiling number of small business contracts for a full range of janitorial services. By the summer of 2005 Tier One Building Services started a branch office in Syracuse N.Y.. Run by my brother Robb. Making us a family owed business. Since that time we have focused on delivering quality & consistent cleaning for our Customes needs. Giving them the time to focus on their Companies needs.

So please welcome Tier One Building Services aboard and watch how your facility is Properly maintained for its growth into this new millennium. I promise you consistent Quality service, you the customer wishes for and deserves at affordable pricing and one stop Calling.

*Sincerely
Ricky S. Bidwell*
